

DAY 1- THE FUN OF DISCOVERY

EXPERIMENTS AND OTHER ACTIVITIES TO DO AT HOME

HOME EXPERIMENT

Homemade lava lamp

See the video on the Wonder Zone web page for instructions on how to make your very own cool, colourful lava lamp.

All you'll need is a bottle/jar/glass, some cooking oil, some food colouring (any colour) and a couple of Alka-Seltzer tablets. Hopefully all things you have at home! Don't forget to ask a grown up to help you.

HOME EXPERIMENT

Wax drawing wonder!

You'll need -

- White Candle
- Paint (watery paint is best)
- Paper
- A paint brush

What to do

- 1) On a piece of paper draw a picture using the White Wax Candle. (Press hard and maybe go over the lines/picture a couple of times so you know the wax is nicely on the paper) - You won't be able to see your picture yet but all will be revealed in the next step.
- 2) Using the brush and paints, paint over your picture to reveal your amazing creation. - You can be experimental and use different coloured paints, maybe in stripes or a rainbow over the picture to create a lovely effect.

Please make me wise and teach me the difference between right and wrong.

1 Kings 3, verse 9
